**Hoop your stabilizer (I use tear away)  
and stitch the placement line.**

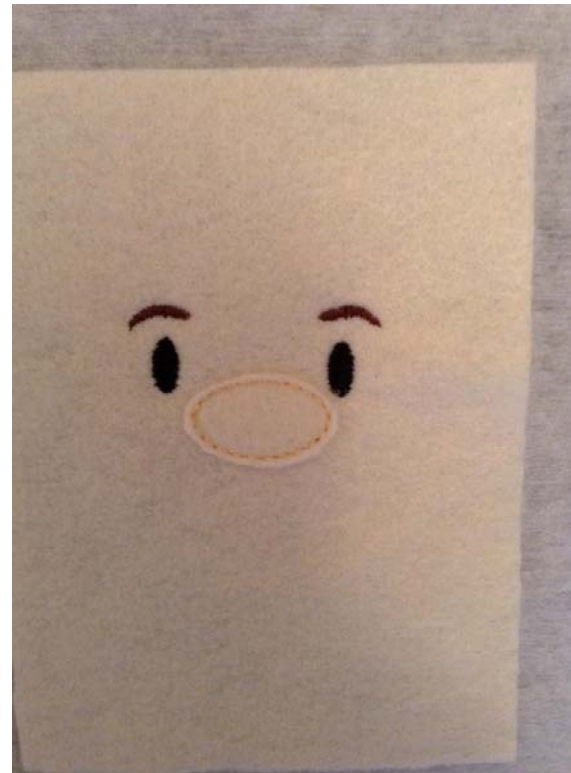

**Lay your felt down for the skin tone, this  
will be your main piece of felt.**

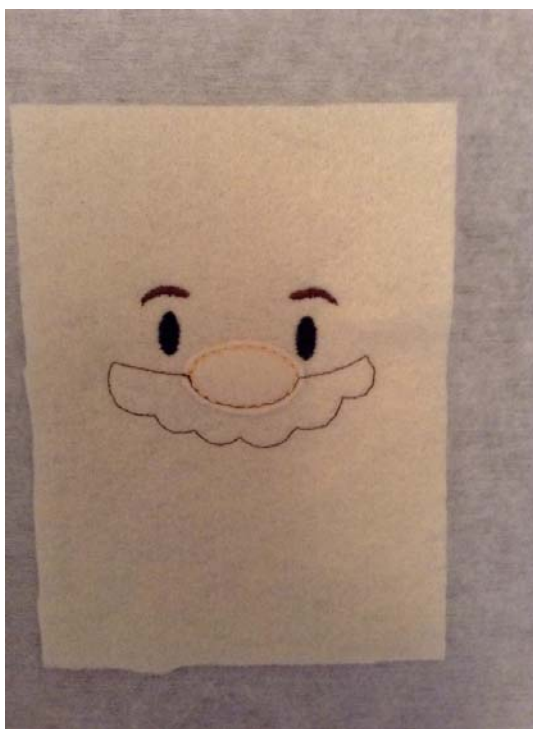

**Stitch the face details. Stitch the placement line for the nose.**

**Run the tack down stitch and only trim around the stitched area. When finished, it will look like the picture below.**

**Run the placement line for the mustache.**

**Run the tack down stitch and only trim around the stitched area. When finished, it will look like the picture below.**

**Stitch the placement line for the shirt.**

**Run the tack down stitch and only trim around the stitched area. When finished, it will look like the picture below.**

**Lay your clothing felt over the design.**

**Stitch the outfit details.**

**Trim only around the stitched areas.  
When finished, it will look like the  
picture below.**

**Remove your hoop from your machine.  
(Do not unhoop your project.) This is  
what the back will look like.**

**Put a full piece of felt the size of your placement line (this varies depending on the size of the device you're making the cover for) over placement line and another piece ½ inch below the placement line.**

**Put the hoop back onto your machine and finish up the final steps. This is what the front will look like when complete.**

**Unhoop your project. Trim  $\frac{1}{4}$  inch from the edges and you're done!**
