**Hoop your stabilizer (I use tear away)
and stitch the placement line.**

**Lay your felt down for the skin tone, this
will be your main piece of felt.**

Stitch placement line for top of the dress.

Run the placement line for the dress. Trim the stitched edges.

Stitch the placement line for the bottom of the dress. Place felt on top and stitch tack down. Trim around the stitched edges.

Stitch the placement line for the hair.

Run the tack down stitch and hair details. Only trim around the stitched area. Stitch the hair detail.

Stitch the face details.

**Remove your hoop from your machine.
This is what the back will look like. (Do not
unhoop your project).**

**Put a full piece of felt the size of your
placement line (this varies depending on
the size of the device you're making the
cover for) over placement line and another
piece ½ inch below the placement line.**

Put the hoop back onto your machine and finish up the final steps.

This is what the front will look like when complete. Trim ¼ inch from the edges and you're done!
